

PRODUCT CATALOGUE

ABOUT US

Yenka Otomotiv was established in Konya in 1986 and has gained a place in the automotive sector after a short period of time with its service understanding and innovative structuring.

Our company has been serving with the mentality of quality production since its establishment. In line with this goal, machinery equipment is designed according to global conditions by paying due attention to investments. The product range is being expanded day by day. Many products used in the automotive industry are produced within the company as of today
